At the ATM

When approaching the ATM, visually scan the area before getting out of your car. If you become suspicious, play it safe and go to another ATM.

Block the view of other people by standing directly in front of the ATM.

When your transaction is finished, leave the area immediately.

If you must go to the ATM after dark, go to one located inside an open business like a grocery store, or ask a friend to go with you.

If you notice a sign or note on the machine informing you that it is being tested or instructing you on how to use the machine – do not insert your card. Find another ATM. Inform your bank at the earliest possible time.
